

REPUBLIC OF RWANDA

## THE NATIONAL BIBLIOGRAPHY OF RWANDA 2022-2023

Kigali, 2024

REPUBLIC OF RWANDA

## FOREWORD

The Rwanda Cultural Heritage Academy (RCHA) has been assigned with the important responsibility of fostering the culture of reading and writing among Rwandans. This crucial role aligns with the pillar of Rwanda's Vision 2050, which focuses on human development. Through the promotion of reading and writing, we aim to contribute to building a knowledge-based economy and transforming mindsets towards the well-being of the population.

National bibliographic collections play a crucial role in providing researchers with access to all national publications, highlighting disparities in intellectual production, and promoting knowledge-sharing both within Rwanda and abroad. This Year, the Rwanda Cultural Heritage Academy is proud to present the 2022-2023 National Bibliography. This invaluable resource serves as an essential tool for scholars, educators, booksellers, and other readers to select and acquire the publications they need.

By acquiring, collecting, describing, and disseminating local publications from government institutions, higher learning institutions, publishers, and authors, we strengthen our national documentary heritage. The preservation of these materials is vital for ensuring their transmission to future generations.

I would like to take this opportunity to express my sincere gratitude to all our partners in the book industry, including publishers, authors, institutions, non-governmental organizations and everyone who has generously contributed to the creation of this National Bibliography of Rwanda for the period of 2022-2023. Your contributions are invaluable in supporting the growth of the reading and writing culture within our society.

REPUBLIC OF RWANDA

## INTRODUCTION

This Rwanda National Bibliography (RNB) is an annual publication for the period 2022–2023, developed and published by the Rwanda Cultural Heritage Academy (RCHA). As part of its mandate, RCHA, through the National Library Services Unit, collects publications from local publishers, authors, government institutions, non-governmental organizations and academic institutions both public and private to compile the National Bibliography of Rwanda. The publishing outputs serve as the primary source of information for the national bibliography.

For a successful and sustainable national bibliography, the efficient cooperation with government institutions, publishers, and distributors of publications is crucial. Publishers, in particular, benefit from a successful national bibliography as it provides greater visibility for their publications.

This annual bibliography serves as a comprehensive record of Rwanda's publishing industry, covering works from government institutions, academic research from local universities and higher learning institutions, and publications by local publishers. We extend our gratitude to all those who contributed to the development of the current edition of the Rwanda National Bibliography.
