

REPUBLIC OF RWANDA

NATIONAL BIBLIOGRAPHY OF RWANDA 2021-2022

KIGALI, June 2023

FOREWORD

Rwanda is promoting a knowledge-based economy. The responsibility of promoting the culture of reading and writing has been entrusted to Rwanda Cultural Heritage Academy, RCHA.

Within its mandate, RCHA collects annually all the publications emanating from Government Institutions, high learning institutions and national publishers in order to publish the National Bibliography of Rwanda. This National bibliographic collection allows researchers to access all national publications, highlight disparities in intellectual production and participate in knowledge sharing within and outside the country. It is a valuable tool for everyone, scholars, teachers and librarians amongst others, to be able to choose and buy the books they need. This document also reflects the dynamism of the publishing industry in Rwanda.

I take this opportunity to thank all who generously contributed to the production of this National Bibliography of Rwanda for the period of 2021-2022 and to the promotion of reading and writing culture in our society.

MASOZERA Robert

Director General

Rwanda Cultural Heritage Academy

INTRODUCTION

The current Rwanda National Bibliography (RNB) is an annual publication covering the period 2021 – 2022 is developed and published by Rwanda Cultural Heritage Academy (RCHA).

For a successful and sustainable national bibliography, legal deposit's legislation and efficient co-operation with Government institutions; publishers and distributors of publications is very important. Publishing outputs are the source of information for the national bibliography. The successful operation of legal or voluntary deposit depends on publishers' co-operation. Publishers should benefit from a successful national bibliography via higher visibility for their publications.

This National Annual Bibliography is a compilation of the Rwandan publishing industry's output; from national imprints from Government institutions; research works from local universities and publications from local publishers. Thereby we thank everyone who contributed to the development of the current national bibliography.
